

Your energy bill

Message Center

This bill reflects BPU-approved changes in the Delivery portion of your bill, effective on and after June 1, 2026. The increase in the Delivery portion of your bill is due to changes in the Societal Benefits Charge offset by decreases to the Gas Conservation Incentive Program Charge, Balancing Charge, and COVID-19 Recovery Charge. As a result of these changes, a typical residential customer who receives gas supply from PSEG and uses 87 therms in an average month will see an average monthly increase of \$0.47, or approximately 0.4%. Tariff information can be found at pseg.com.

Help is available to pay your energy bill! The Universal Service Fund (USF) and Fresh Start Program can help make energy bills more affordable by lowering your monthly payment amount and providing relief from past-due balances. To apply online, visit pseg.com/EnergyAssistance or, for more information, call 1-800-510-3102.

Total gas charges \$19.87

Explaining gas charges

We measure the volume of gas you use in cubic feet (CCF) and then convert it to therms.

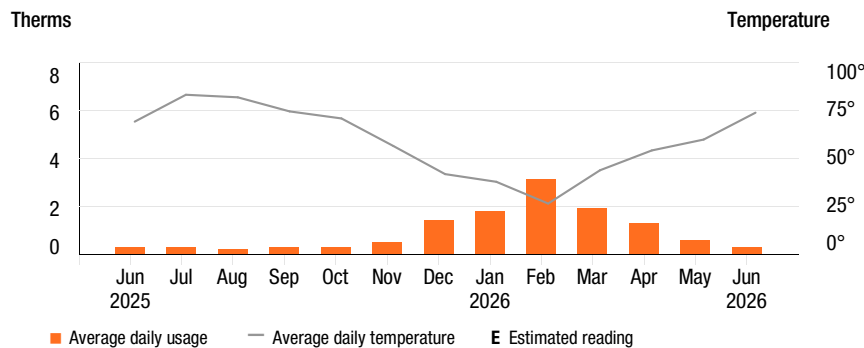

If you used a standard gas clothes dryer, it would take about 6 hours to equal 1 therm of energy.

Price to compare

If you want to consider getting your gas supply from another supplier, you can compare their price with ours. This month, your cost for gas supply is \$3.42 (or an average of 0.36348177 per therm). This *price to compare* varies from month to month, depending on your usage.
