

Your energy bill

Message Center

This bill reflects BPU-approved changes in the Supply portion of your electric bill, effective on and after July 15, 2026. The increase in the Supply portion of your bill is due to changes in the Transmission Charge. As a result of these changes, a typical residential customer who receives electric Supply from PSE&G and uses 558 kilowatt-hours in an average month will see an average monthly increase of \$2.68, or approximately 1.8%. Tariff information may also be found by visiting pseg.com.

If you are behind on your energy bills and at risk for service shut-off, you may qualify for a program that protects you from having your electricity turned off from June 15 through August 31. Visit pseg.com/Help for details.
